Candidate's Seat No. 31

Third B.Sc. (Nursing) (New) Examination

Child Health Nursing

Date : 19-07-2010, Monday]

Time : 3 Hours]

[Max. Marks : 75

- Instructions :
- (1) Figure to the right indicates full marks.
 - (2) Draw the diagrams wherever necessary.
 - (3) Write section I & II in separate answer book.
 - (4) All question are compulsory.

SECTION I

Q.1 Baby Dolly 3 years old, admitted to the medical ward with the diagnosis of B-Thalassemia.

- (a) Define Thalassemia & its types. *9543*
- (b) List the signs & symptoms of Thalassemia.
- (c) Provide Health education to the parents of Dolly.

(2+4+4= 10)

Q.2 (a) Explain the Eric-Erickson stage of development for Pre schooler.

- (b) Discuss prevention of health problems in this group. *5*

(5+5= 10)

Q.3 Explain the role of Child health nurse in caring of Hospitalized child.

(8)

Q.4 Write short notes (Any two) *49-66*

(2x5=10)

- a) Benefits of play therapy. *-216*
- b) Trends in Child care. *-8*
- c) Preterm neonate. *-315*
- d) Child guidance clinic. *193*

Section -II

Q.5 Newborn baby of Anita ,admitted in NICU with diagnosis of Lumbosacral Meningomyelocele.

- (a) Define and classify Spina bifida. *583*
- (b) Explain the nursing management of child with meningomyelocele. *585*

(2+8= 10)

Q.6 (a) Define nutritional deficiency disorder.

- (b) List the types of nutritional deficiency disorder. *397*
- (c) Explain the Vit.A Deficiency in detail and its prevention. *409*

(2+2+6= 10)

Q.7 (a) What is Atrio septal defect. *516*

- (b) Describe the nursing care of child with congenital heart disease. *514*

(2+5= 7)

Q.8 Write short notes: (Any Two)

(2x5=10)

- a) Restraints &its uses. *-pavou-151*
- b) Benefits of Exclusive Breast feeding. *-148-235*
- c) Objectives of IMNCI. *390+92*
- d) Care of infant with HIV.

Third B.Sc. (Nursing) Examination
Child Health Nursing

[Max. Marks :

Date : 20-07-2011 Wednesday]

[Time : 3 Hours

- Instructions : (1) Write each section in a separate answer book.
(2) Figure to the right indicates marks.
(3) Draw diagram wherever necessary.

SECTION I

- Q.1 Define the following (Any 5) (2x5=10)
- | | | | |
|--------------------------|-----|-----------------------------|-----|
| a. Growth | 70 | d. Exclusive breast feeding | 148 |
| b. Pathological Jaundice | | e. Hemophilia | 546 |
| c. Preventive pediatrics | 231 | f. Low Birth weight | 313 |
- Q.2 Newborn of Mrs. Sweety, admitted in NICU with diagnosis of Tracheoesophageal fistula
- a. Define and Classify the types of tracheo esophageal fistula.
- b. Discuss the surgical & nursing management of tracheo esophageal fistula (5+5=10)
- Q.3 What are the internationally accepted rights of children. (8)
- Q.4 Write short notes (Any 2) (2x5=10)
- | | | | |
|--|-----|-------------------------|-----|
| a. Under five clinic | 172 | c. Kangaroo mother care | 325 |
| b. Activities of school health programme | 26 | d. Cold chain | 178 |

SECTION II

- Q.1 (a). Discuss the different factors affecting the Growth and development of child. 73
(b). Explain the principles of Growth and development. 70 (5+5=10)
- Q.2 Baby Ashy is admitted in pediatric ward with symptoms of polyuria, polyphagia, thirst & fatigue.
- a. Identify the diagnosis of the child Diabetes
- b. Prepare a nursing care plan for baby Ashy.
- Q.3 Plan a Health education for the mothers to manage enuresis in children. 737 (2+8=10) (7)
- Q.4 Write Short notes (Any 2) (2x5=10)
- care of newborn
 - causes of accidents in toddler
 - care of child on phototherapy
 - reasons of infant mortality in India

48E100

Candidate's Seat No

Third Year B.Sc. (Nursing) Examination
Child Health Nursing

[Max. Marks : 30]

Time: 3 Hours]

- Instructions : (1) Attempt all the questions.
(2) Write Section I and Section II in separate answer book.
(3) Draw the diagram wherever needed.

SECTION-A

- (1) Define following Terminology (Any Five) (2*5=10)
 1) Meningitis 3/8 2) Measles. 2/3 3) Kangaroo Mother Care 1/9
 3) Epispadias 3/0 4) Pneumonia 6) Juvenile Diabetes
- (2) (A) Define Growth & Development. (2+2+6=10)
 (B) List the stages of Development.
 (C) Discuss the Principles of Growth & Development.
- (3) (A) Define High Risk Baby. (2+3+5=10)
 (B) Enlist the characteristics of High Risk Baby.
 (C) Write briefly preventive nursing measures of high risk baby.
- (4) Write short notes. (Any Two) (5*2=10)
 (A) Rights of the child (B) Values of play & play materials
 (C) Neonatal Jaundice

SECTION-B

- (5) (a) Define Hydrocephalus. (2+3+5=10)
 (b) List the clinical manifestation of hydrocephalus.
 (c) Write medical management of child with hydrocephalus.
- (6) (a) Define Leukemia.
 (b) List the clinical manifestation of Leukemia.
 (c) Discuss briefly nursing management of child with Leukemia. (2+3+5=10)
- (7) (a) Define Nephrotic syndrome. (2+3+5=10)
 (b) Enlist the clinical manifestation of Nephrotic syndrome.
 (c) Prepare the diet menu planning for 5 years old child with Nephrotic syndrome.
- (8) Write short notes. (Any Two) (5*2=10)
 (a) Thalassaemia 3/4
 (b) Advantages of breast feeding.
 (c) Phototherapy

Third Year B.Sc. (Nursing) Examination

Child Health Nursing

[Maxi. Marks : 80]

Time: 3 hours]

- Instructions :
- (1) All questions are compulsory.
 - (2) Tie both sections separate answer book.
 - (3) Draw the diagram wherever needed.

SECTION I

Q-1

- a) Define Behavioral Problems.
 - b) List the behavioral problems among pre-school children
 - c) Explain any one of them in detail.
- (1+3+6=10)

Q-2

- a) Define Low Birth Weight Baby.
 - b) Explain the Nursing intervention of Low Birth Weight Baby.
- (2+8=10)

Q-3

- a) Define Nephrotic syndrome.
 - b) Prepare discharge nursing care plan of child with nephrotic syndrome.
- (2+8=10)

Q-4 Write short notes. (Any Two)

- a) Causes of neonatal mortality rate.
 - b) Prevention of accidents in toddler.
 - c) Protein Energy Malnutrition (PEM)
 - d) Objectives of IMNCI
- (5 X 2 = 10)

SECTION II

Q-5

- a) Define Hydrocephalus.
 - b) Write the Post-Operative nursing management of child with ventriculo-Peritoneal shunt. (V.P. Shunt)
- (2+8=10)

Q-6

- a) Define pneumonia.
 - b) Explain the nursing management of child with pneumonia.
- (2+8=10)

Q-7

- a) Define Tubercle Meningitis (TBM)
 - b) Discuss the nursing management of child with TBM.
- (2+8=10)

Q-8 Write short notes. (Any Two)

- a) Benefits of Kangaroo Mother Care
 - b) Preventive Pediatrics
 - c) Neonatal jaundice
 - d) Principles of Growth and Development
- (2 X 5 = 10)

Third Year B.Sc. (Nursing) Examination

Child Health Nursing

Date : 31-07-2014, Thursday]

Time : 3 Hours]

[Max. Marks : 75

- Instructions : (1) Answer to the point.
 (2) Figure to the right indicate marks.
 (3) Write legibly.
 (4) Draw diagrams wherever necessary.
 (5) Use separate answer books for each section.

SECTION-1(38 Marks)

- Q-1 (a) Define low birth weight baby [2+3+5=10]
 (b) What are the factors responsible for neonatal hypothermia?
 (c) Describe prevention of neonatal hypothermia
- Q-2 (a) list the congenital anomalies in gastrointestinal system. [3+5=8]
 (b) Discuss the pre and post operative care of colostomy patient
- Q-3 (a) Define burns? [2+4+4=10]
 (b) Discuss the estimation of body surface area burnt by "Rule of five" in older children .
 (c) Describe the Nursing Management of burns.
- Q-4 Write Short note (Any two) [5X2=10]
 (a) School health services
 (b) I.C.D.S.
 (c) Principles for use of Restraints.
 (d) Enuresis (Bed wetting)
- SECTION -II (37 Marks)
- Q-5 3 year's old baby pinky is admitted in pediatric ward with acute asthmatic attack. [2+3+5=10]
 (a) Define Asthma
 (b) Discuss patho physiology of asthma
 (c) Describe Nursing management of asthma
- Q-6 (a) Explain factors affecting growth and development. [4+3=7]
 (b) Discuss reflexes of the normal neonate.
- Q-7 (a) What is meningitis? [2+3+5=10]
 (b) Discuss the manifestations of meningitis.
 (c) Explain Nursing Management of meningitis.
- Q-8 Write Short note (Any two) [5X2=10]
 (a) Hyponatremia
 (b) Diphtheria
 (c) Hook worms
 (d) Hemophilia

 - (3) Write legibly.
 - (4) Draw diagrams wherever necessary.
 - (5) Use separate answer books for each section.

{Section A – 38}

Q-1 Long answer Question. (Any One)

2+5+8=15

- a) Define growth and development.
- b) List the stages and factors influencing growth and development.
- c) Discuss in detail about the growth and development of toddler.

OR

- a) Define high risk newborn.
- b) Explain in detail the assessment of high risk newborn.
- c) Describe the nursing management of a high risk newborn.

Q - 2. Short Essay Question: (Any Three)

3×5=15.

- a) Current Immunization schedule
- b) IMNCI
- c) International Right of children
- d) Under five clinic
- e) Organization structure of PICU

Q - 3. Short answer Question: (Any Four)

2x4=8

- a) Define neonatal mortality rate.
- b) List the National programs related to child health.
- c) List any four principles of growth & development
- d) List the four types of restraints
- e) Mention four clinical manifestations of respiratory distress syndrome.

[P.T.O.]

0816E133-2
{Section B - 37}

Q-4 Long answer Question. (Any One)

Master Ritesh 5 years old is admitted with the diagnosis of PEM.

- a) Define PEM.
- b) Explain the differentiation between Kwashiorkor and Marasmus
- c) Discuss the nursing process application for a child with kwashiorkor.

OR

Master John, 7 yrs male is admitted with diagnosis of Nephrotic syndrome.

- a) Define Nephrotic syndrome.
- b) Explain pathophysiology and clinical manifestation of Nephrotic syndrome.
- c) Describe the nursing management for Master John.

Q - 5. Short Essay Question: (Any Three)

- a) Tetralogy of fallot (TOF)
- b) Hypospadias
- c) HIV in children
- d) Nursing responsibilities in Behaviour Disorder.
- e) Congenital Megacolon.

Q - 6. Short answer Question: (Any Four)

- a) Mention four signs and symptoms of rheumatic fever.
- b) Enumerate two signs of meningitis.
- c) List the types of Tracheo-oesophageal fistula and atresia
- d) Mention four major manifestations of rheumatic fever.
- e) List four main characteristics of child with severe diarrhea.

Time : 3 Hours]

- Instructions :** (1) Answer to the point.
(2) Figure to the right indicate marks.
(3) Write legibly.
(4) Draw diagrams wherever necessary.
(5) Use separate answer books for each section.

Section A – 38

Q-1 Long answer question (any one)

2+5+8=15

- Define congenital heart disease.
- Explain classification of congenital heart disease
- Discuss nursing care of child with ventricular septal defect in detail with nursing process

OR

- Define Neonate
- Enlist characteristics of normal newborn baby.
- Discuss nursing management of normal new born baby

Q-2 Short Essay question (any Three)

3×5=15

- ICDS program
- Prevention of accident in children
- Care of newborn under phototherapy
- Dietary management of children with nutritional anemia
- Care of child with burn

Q-3 Short answer question (any four)

4×2=8

- Define NICU
- List down diseases caused by vitamin A deficiency

[P.T.O.]

- c) Explain degree of dehydration
- d) Discuss behavioral problems in toddler
- e) Define cold chain

Section B - 37

Q-4 Long answer question (any one)

2+5+7 = 14

- a) Define acute glomerulonephritis
- b) Explain pathophysiology and clinical manifestation of acute glomerulonephritis
- c) Discuss medical and nursing management of child with acute glomerulonephritis

OR

- a) Define Hirschprung's disease
- b) Explain clinical manifestation of Hirschprung's disease
- c) Discuss pre and post-operative nursing management of child with Hirschprung's disease

Q-5 Short Essay question (any Three)

3x5=15

- a) Reaction of toddler to hospitalization
- b) Neonatal resuscitation
- c) Play therapy in children
- d) Nursing responsibility in oxygen therapy
- e) National immunization schedule

Q-6 Short answer question (any four)

4x2=8

- a) Define protein energy malnutrition
- b) Draw symbol of under-five clinic
- c) Explain mode of heat loss in newborn baby
- d) Define weaning
- e) Discuss John's criteria used for diagnosis of rheumatic heart disease
- f) Explain concept of atraumatic care in children
